

Validation of alternative analysis methods

NF102 – Application to the food industry

Certificate

Certificate No.: **AES 10/10-07/10**

Renewal decision dated: **15-06-2022**

Expiry date: **02-07-2026**

The Company:

bioMérieux SA
Chemin de l'Orme
69280 Marcy l'Etoile
FRANCE

Is authorized to affix the NF VALIDATION mark on the alternative analysis method cited below, in accordance with the NF VALIDATION general rules and the certification rules NF102 - Validation of alternative analysis methods (Application to the food industry):

BACARA®

Validated for the enumeration of presumptive *Bacillus cereus*

Technical sheet
reference's

Réf. 049969 – version **03**

Réf. 049969 – version **04**

This decision attests that the alternative analysis method has been assessed by AFNOR Certification and found to conform to the standards cited in page 2/2 and complementary requirements, as specified in the certification reference document. The **principal certified characteristics** are the "analytical performances" as defined in the associated validation study summarized report (relative trueness, accuracy profile), available on the certification dedicated website <http://nf-validation.org/en>.

This certificate supersedes all previous certificates (last version dated 01-12-2021). This NF VALIDATION certificate, included 2 pages, is valid until **2nd July 2026**. It is subject to the results obtained upon regular controls carried out by AFNOR Certification. Appropriate decision is made by AFNOR Certification in accordance with the NF VALIDATION general rules and certification rules NF102 - Validation of alternative analysis methods (Application to the food industry).

Validation of alternative analysis methods

NF102 – Application to the food industry

Certificate

Certificate No.: **AES 10/10-07/10**

Renewal decision dated: **15-06-2022**

Expiry date: **02-07-2026**

The alternative analysis method:

BACARA®

Validated for the enumeration of presumptive *Bacillus cereus*

Manufactured by:

bioMérieux SA
Route de Dol – BP 54
35270 Combourg
FRANCE

Has been certified according to the reference documents and the application scope specified here after:

Validation protocol	NF EN ISO 16140-2 (September 2016): Microbiology of the food chain. Method validation - Part 2: Protocol for the validation of alternative (proprietary) methods against a reference method.
Reference method(s)	NF EN ISO 7932 and its amendment A1 (April 2020) : Microbiology of food and animal feeding stuffs - Horizontal method for the enumeration of presumptive <i>Bacillus cereus</i> - Colony-count technique at 30 degrees C - Amendment 1 : inclusion of optional tests
Scope	All human food products (by performing validation assays on a broad range of foods) and feeds.
Restriction(s)	None.
Warning	None.
Other information	Non applicable.

Please send any queries concerning the performances of the certified alternative method to AFNOR Certification.

You may download the validation study **summarized report** on <http://nf-validation.afnor.org/en>.
