

Validation of alternative analysis methods
NF102 – Application to the food industry

Certificate

Certificat No.: **AES 10/11-07/11**
Renewal decision dated: **22-05-2015**
Expiry date: **01-07-2019**

The Company:

bioMérieux
Chemin de l'Orme
69280 Marcy l'Etoile - France

Is authorized to affix the NF VALIDATION mark on the alternative analysis method cited below, in accordance with the NF VALIDATION general rules and the certification rules NF102 - Validation of alternative analysis methods (Application to the food industry):

IBISA®

Validated for the detection of *Salmonella* spp.

Technical sheet reference's

520060 - Version E

This decision attests that the alternative analysis method has been assessed by AFNOR Certification and found to conform to the standards cited in page 2/2 and complementary requirements, as specified in the certification reference document. The **principal certified characteristics** are the "analytical performances" as defined in the associated validation study summarized report (sensitivity, relative detection level...), available on the certification dedicated website <http://nf-validation.org/en>.

This certificate supersedes all previous certificates (last version dated 28-01-2014). This NF VALIDATION certificate, included 2 pages, is valid until **01st July 2019**. It is subject to the results obtained upon regular controls carried out by AFNOR Certification. Appropriate decision is made by AFNOR Certification in accordance with the NF VALIDATION general rules and certification rules NF102 - Validation of alternative analysis methods (Application to the food industry).

Validation of alternative analysis methods
NF102 – Application to the food industry

Certificate

Certificat No.: **AES 10/11-07/11**
Renewal decision dated: 22-05-2015
Expiry date: 01-07-2019

The alternative analysis method:

IBISA®

Validated for the detection of *Salmonella* spp.

Manufactured by:

bioMérieux
2, rue du Moulin Madame
35270 Combours - France

Has been certified according to the reference documents and the application scope specified here after:

Validation protocol	NF EN ISO 16140 (October 2003): Microbiology of food and animal feeding stuffs. Protocol for the validation of alternative methods.
Reference method(s)	NF EN ISO 6579 (December 2002): Microbiology of food and animal feedings stuffs. Horizontal method for the detection of <i>Salmonella</i> spp.
Scope	All human and animal food products, and production environment samples (except environment of primary production stage).
Restriction(s)	None.
Warning	None.
Other informations	Non applicable.

Please send any queries concerning the performances of the certified alternative method to AFNOR Certification.

You may download the validation study **summarized report** on <http://nf-validation.afnor.org/en>.
