chromID™ Coli Agar (COLI ID-F)

Validated for the enumeration of β -glucuronidase-positive *Escherichia coli* at 37°C

Technical sheet
reference's

Réf. 42017 - 044618 version 03

This decision attests that the alternative analysis method has been assessed by AFNOR Certification and found to conform to the standards cited in page 2/2 and complementary requirements, as specified in the certification reference document. The **principal certified characteristics** are the "analytical performances" as defined in the associated validation study summarized report (linearity, relative accuracy ...), available on the certification dedicated website <http://nf-validation.org/en>.

This certificate supersedes all previous certificates (last version dated 16-07-2019). This NF VALIDATION certificate, included 2 pages, is valid until **14th December 2022**. It is subject to the results obtained upon regular controls carried out by AFNOR Certification. Appropriate decision is made by AFNOR Certification in accordance with the NF VALIDATION general rules and certification rules NF102 - Validation of alternative analysis methods (Application to the food industry).
