Subject: NF VALIDATION mark

SOLABIA SAS
Mrs. Natacha GENTIEN
ZAC DES THERS rue des 40 mines
60002 ALLONNE
FRANCE

La Plaine Saint-Denis, January 30th, 2020

Dear Madam,

Following the positive agreement expressed on 30th January, 2020, by the Technical Board of the NF VALIDATION mark NF102, in its application to the food industry, I beg to inform you that the **NF VALIDATION certification has been renewed** for the following alternative method:

COMPASS® *Listeria* Agar (Enumeration)

Certificate reference No.BKR 23/05-12/07, with end of validity 04th-Dec.-2023

The alternative method has been validated by comparison to the reference method NF EN ISO 11290-2 (2017) and following the validation protocol NF EN ISO 16140-2 (2016) for the enumeration of *Listeria monocytogenes* in all human food products (by performing validation assays on a broad range of foods) and industrial production environmental samples.

A further letter will mention full conclusions and possible reservations made by the Technical Board. If reservations are mentioned, I ask you to take them into account without any delay.

Yours Sincerely.

Managing Director
Franck LEBEUGLE
