Is authorized to affix the NF VALIDATION mark on the analysis method cited below, in accordance with the NF VALIDATION general rules and the certification rules NF148 - Validation of alternative analysis methods (Application to water):

## iQ-Check® *Legionella* spp.

Validated for the detection and the quantification of *Legionella* spp.

Technical sheet  
reference's

iQ-Check® *L. pneumophila* Screen (ref. 3578104) and Quanti (ref. 3578102) kits: **Code 881117 – 12/2015**  
AQUADIEN™ kit (ref. 3578121): **Code 881116 – 12/2015**

This decision attests that the analysis method has been assessed by AFNOR Certification and found to conform to the standards cited in page 2/2 and complementary requirements, as specified in the certification reference document. The principal certified characteristics are the "analytical performances" as defined in the associated validation study summarized report (calibration function, LOD, LOQ and positive threshold, yield...), available on the certification dedicated website <http://nf-validation.org/en>.

This certificate supersedes all previous certificates (last version dated 07-01-2014). This NF VALIDATION certificate, included 2 pages, is valid until **18<sup>th</sup> December 2019**. It is subject to the results obtained upon regular controls carried out by AFNOR Certification. Appropriate decision is made by AFNOR Certification in accordance with the NF VALIDATION general rules and certification rules NF148 - Validation of alternative analysis methods (Application to water).
