La Plaine Saint-Denis, July 3rd, 2017

Dear Sir,

Following the positive agreement expressed on July 3rd, 2017, by the Technical Board of the NF VALIDATION mark (NF102), in its application to the "food industry", I beg to inform you that the **NF VALIDATION certification has been renewed** for the following alternative method:

Solus *Salmonella* ELISA

Certificate reference No. SOL 37/01-06/13, with end of validity 18th-June-2021

The validation of the method is renewed by comparison to the reference method NF EN ISO 6579-1 (2002) and according to the validation protocol NF EN ISO 16140-2 (2016) for the following scope: detection of *Salmonella* spp. in all human food products (by performing validation assays on a broad range of foods), feed products and production environmental samples (excluding primary production environment samples).

A further letter will mention full conclusions and possible reservations made by the Technical Board. If reservations are mentioned, I ask you to take them into account without any delay.

Yours Sincerely.

Managing Director
Franck LEBEUGLE

La Plaine Saint-Denis, March 24th, 2017

Dear Sir,

The NF VALIDATION certificate of the following analysis method:

Solus Salmonella ELISA	Ref. SOL 37/01-06/13
-------------------------------	-----------------------------

will expire on June 18th, 2017 before that complete results of the renewal study may be examined by the Technical Board "Food microbiology" of the NF VALIDATION mark (NF102).

Following the positive agreement of the Technical Board, I declare that you can continue to refer to this certificate till July 18th, 2017.

Yours Sincerely.

Managing Director
Franck LEBEUGLE

Validation of alternative analysis methods

NF102 – Application to the food industry

Certificate

Certificate No.: **SOL 37/01-06/13**

Extension decision dated: 15-05-2014

Expiry date: 18-06-2017

The Company:

Solus Scientific Solutions Limited

Units 9 & 10, Mansfield Network Centre
Millennium Business Park, Concorde Way
Mansfield, Nottinghamshire, NG19 7JZ - United Kingdom

Is authorized to affix the NF VALIDATION mark on the alternative analysis method cited below, in accordance with the NF VALIDATION general rules and the certification rules NF102 - Validation of alternative analysis methods (Application to the food industry):

Solus Salmonella ELISA

Validated for the detection of *Salmonella* spp.

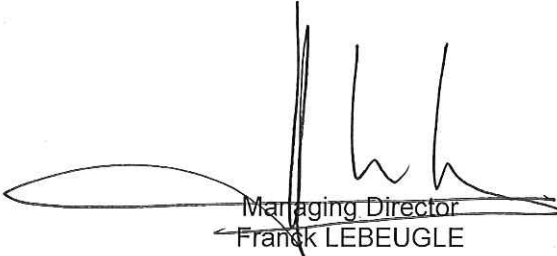

Technical sheet
reference's

QCF 16 – Issue 1.3 – 10/15 (1 microplate)
QCF 17 – Issue 1.3 – 10/15 (5 microplates)

This decision attests that the alternative analysis method has been assessed by AFNOR Certification and found to conform to the standards cited in page 2/2 and complementary requirements, as specified in the certification reference document. The **principal certified characteristics** are the "analytical performances" as defined in the associated validation study summarized report (linearity, relative accuracy...), available on the certification dedicated website <http://nf-validation.org/en>.

This certificate supersedes all previous certificates (last version dated 11-12-2013). This NF VALIDATION certificate, included 2 pages, is valid until **18th June 2017**. It is subject to the results obtained upon regular controls carried out by AFNOR Certification. Appropriate decision is made by AFNOR Certification in accordance with the NF VALIDATION general rules and certification rules NF102 - Validation of alternative analysis methods (Application to the food industry).

Validation of alternative analysis methods

NF102 – Application to the food industry

Certificate

Certificate No.: **SOL 37/01-06/13**

Extension decision dated: 15-05-2014

Expiry date: 18-06-2017

The alternative analysis method:

Solus *Salmonella* ELISA

Validated for the detection of *Salmonella* spp.

Manufactured by:

Solus Scientific Solutions Limited
Units 9 & 10, Mansfield Network Centre
Millennium Business Park, Concorde Way
Mansfield, Nottinghamshire, NG19 7JZ - United Kingdom

Has been certified according to the reference documents and the application scope specified here after:

Validation protocol	NF EN ISO 16140 (October 2003): Microbiology of food and animal feeding stuffs. Protocol for the validation of alternative methods.
Reference method(s)	NF EN ISO 6579 (December 2002): Microbiology of food and animal feedings stuffs. Horizontal method for the detection of <i>Salmonella</i> spp.
Scope	All human and animal food products and production environmental samples (except primary production environment samples).
Restriction(s)	None.
Warning	None.
Other informations	Non applicable.

Please send any queries concerning the performances of the certified alternative method to AFNOR Certification.

You may download the validation study summarized report on <http://nf-validation.afnor.org/en>.
