Avis BT\_ANSR L.spp\_2019-11-28(R1)

Subject: NF VALIDATION mark

**Neogen Europe Ltd**  
Mr. Frédéric MARTINEZ  
Auchincruive KA6 5HW Ayrshire Scotland  
UNITED KINGDOM

La Plaine Saint-Denis, January 10<sup>th</sup> 2020

Dear Sir,

Following the positive agreement expressed on November 28<sup>th</sup>,2019, by the Technical Board of the NF VALIDATION mark (NF102), in its application to the food industry, I beg to inform you that the **NF VALIDATION certification has been renewed** for the following alternative method:

**ANSR for *Listeria* spp.**

**Certificate reference No. NEO 35/03-01/16, with end of validity 28-Jan-2024**

The alternative method is validated by comparison with the reference method NF EN ISO 11290-1 and its amendment 1 (2017) and according to the validation protocol NF EN ISO 16140-2 (2016) for the detection of *Listeria* spp. in all human food products (by performing validation assays on a broad range of foods), feed products and industrial production environmental samples.

A further letter will mention full conclusions and possible reservations made by the Technical Board. If reservations are mentioned, I ask you to take them into account without any delay.

Yours Sincerely.

Managing Director  
Franck LEBEUGLE
