

Validation of alternative  
analysis methods

NF102 – Application to the food industry

# Certificate

Certificate No.: **BRD 07/04-09/98**

Renewal decision dated: 30-06-2023

Expiry date: 15-09-2027

The Company:

**BIO-RAD**  
3 Boulevard Raymond Poincaré  
92430 Marnes-La-Coquette  
FRANCE

Is authorized to affix the NF VALIDATION mark on the alternative analysis method cited below, in accordance with the NF VALIDATION general rules and the certification rules NF102 - Validation of alternative analysis methods (Application to the food industry):

## **RAPID'L. mono (detection)**

Validated for the detection of *Listeria* spp. and *Listeria monocytogenes*

Technical sheet  
reference's

10000251398 Ver B

This decision attests that the alternative analysis method has been assessed by AFNOR Certification and found to conform to the standards cited in page 2/2 and complementary requirements, as specified in the certification reference document. The **principal certified characteristics** are the "analytical performances" as defined in the associated validation study summarized report (sensitivity, relative level of detection, inclusivity and exclusivity), available on the certification dedicated website <http://nf-validation.org/en>.

This certificate supersedes all previous certificates (last version dated 03-07-2025). This NF VALIDATION certificate, included 2 pages, is valid until **September 15<sup>th</sup>, 2027**. It is subject to the results obtained upon regular controls carried out by AFNOR Certification. Appropriate decision is made by AFNOR Certification in accordance with the NF VALIDATION general rules and certification rules NF102 - Validation of alternative analysis methods (Application to the food industry).

Managing Director of AFNOR Certification  
Julien NIZRI

NF102 – Application to the food industry

# Certificate

Certificate No.: **BRD 07/04-09/98**

Renewal decision dated: 30-06-2023

Expiry date: 15-09-2027

The alternative analysis method:

## **RAPID'L. mono (detection)**

Validated for the detection of *Listeria* spp. and *Listeria monocytogenes*

Manufactured by:

**BIO-RAD**  
Route de Cassel  
59114 Steenvoorde  
FRANCE

Has been certified according to the reference documents and the application scope specified here after:

|                     |                                                                                                                                                                                                                     |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Validation protocol | <b>NF EN ISO 16140-2</b> (September 2016): Microbiology of the food chain. Method validation - Part 2: Protocol for the validation of alternative (proprietary) methods against a reference method.                 |
| Reference method(s) | <b>NF EN ISO 11290-1</b> (July 2017): Microbiology of the food chain - Horizontal method for the detection and enumeration of <i>Listeria monocytogenes</i> and of <i>Listeria</i> spp. - Part 1: detection method. |
| Scope               | All human food products (by performing validation assays on a broad range of foods) and industrial production environmental samples.                                                                                |
| Restriction(s)      | None.                                                                                                                                                                                                               |
| Warning             | None.                                                                                                                                                                                                               |
| Other information   | Non applicable.                                                                                                                                                                                                     |

*Please send any queries concerning the performances of the certified alternative method to AFNOR Certification.*
